### Be a Part of the First Round of the Northwest Regionals of the National Homebrew Competition

#### Enter, Judge, Steward, and Celebrate!

Break out your entries, get ready to judge, and come be a part of what will be the largest homebrew competition hosted in Washington state! The National Homebrew Competition is the most prestigious homebrewing competition in the world, drawing collectively more entries than any other beer competition. Seattle will be hosting the 2010 Northwest Regionals of the competition and wants Washington to bring it strong! Homefield advantage makes a difference! Fresher beers, and let's face it, like palates taste alike!

#### Enter, Enter, Enter!

The NHC is a two round competition. You first enter your regionals where you'll go up against brewers in our neck of the woods to qualify for the second round held at the National Homebrewers Conference (you only pay one entry fee). The top 3 beers scoring above 30 in each BJCP Category advance to the second round ( [rules](#) ) .

Because this is local, your beers will arrive fresh, well-treated, and be judged by a majority of judges that have a built-in appreciation for local flavor! The full details for the competition are available [HERE](#) :

### Help - Judge & Steward & Volunteer!

**WE NEED EVERYONE WHO CAN OR WANTS TO JUDGE TO PARTICIPATE IN THIS COMPETITION!!!** Seriously here, we will have a ton of entries to judge! If all of our great BJCP judges as well as non-BJCP brewers who know their beer and want to get some more experience judging can show up on April 10th at Pyramid Brewery to help judge, we will be able to process all of these entries quickly and show the AHA that Washington judges are a force to be recognized. This in turn will help us bring the National Homebrewers Conference to Seattle in the future. Lunch will be provided, we'll have a raffle, and we are working on "after-judging" plans. We are expecting out of state/area judges to come in as well so if you need a place to stay or are willing to offer someone a place to crash, please contact [Tim](#)
